

STAINLESS BALL SOLUTION®

Ball bearings for severe service environments: available mounted in housings or available separately

- EDT's HACCP-friendly housings are designed for maximum cleanability
- Spherical or cylindrical inserts available
- Depending on the environment, choose units with food-grade grease or with any of a variety of solid lubricants
- Choose stainless, non-corrosive treated or standard steel inserts as best suited to the application
- Available in sizes: inches from 1/2" to 2-7/16, metric from 12 mm to 60 mm non-corrosive treated available sizes to 3" (some by special order)
