

VEGETABLE FREEZER

**1 Year
GUARANTEED
Application**

NAIUE7-1-1/4

Drive and Idler shaft bearing

	Original Bearing	EDT Bearing
Bearing	Standard metal insert in cast iron housing	NAIUE7-1-1/4, NA Poly-Round® with locking sleeve can be installed into an existing housing or purchase assembled in a polymer or stainless housing
Failure	Rust from condensation and bearing lock up, or failure of lubrication at cryogenic temperatures	Insert will elongate over time, periodically inspect bearing to schedule replacement
Length of Service	3 months	1-2 years (guaranteed application)
Maintenance Required	Weekly re-lubrication, bearing replacements	No re-lubrication, no maintenance after installation
Features & Benefits	Low initial cost	Lower life cost, reduced maintenance costs, lower cost of ownership

SAFELINE METAL DETECTOR CARRY- THRU BELT

ZY9GC8-1

Modular Plastic Belt Conveyor

	Original Bearing	EDT Bearing
Bearing	Standard steel bearing in cast iron housing	ZY9GC8-1, stainless ball bearing in polymer housing
Failure	Rusty housing, felt seal in insert bearing not designed for washdown environment	Stainless bearing insert resists corrosion, polymer housing resists washdown environment
Length of Service	2 months	12+ months
Maintenance Required	Frequent relubrication and changeout of complete bearing	Occasional relubrication of insert bearing
Features & Benefits	Low initial cost	Longer, more reliable life. Lower maintenance costs. Lower cost of ownership.
